TORNADO STRIKES JONES COUNTY

Laurel, Miss., April 16.—The eastern section of Jones county was struck by a tornado Tuesday afternoon and at least five persons were injured, according to information received here today.

Half a dozen farmhouses were demolished. The loss of livestock, farm property and standing timber will be heavy, it is said.

All telephone communication was destroyed by the storm.

Teutons in History.

The term Teuton is of Latin origin. In ancient times the part of Europe now embraced in Germany was called Germania, and one of the principal tribes of the country was called by the civilized Romans Teutons, just as we speak of the Apache Indian. Being a fierce and warlike people they gave the Romans a great deal of trouble, and as they were the dominant tribe of that region the name of Teutons gradually came to be applied to all the people occupying what was called Germania. It has survived in the form of Teutons.

Wings for Skaters. Wings to be strapped to the arms and legs to enable skaters to make use of the wind, form the subject of a recent patent.

UNSIGHTLY FRECKLES Instantly Removed

Try this simple formula. Go to any toilet counter and get a bottle of Derwill; apply two or three times daily, then watch the freckles disappear. The very first application proves it. Once you try it you will never be without it. Thousands use it in place of face powder, as it not only removes freckles, but instantly beautifies the complexion as well. There is no other substitute for Derwill as no other freckle remover does this. It gives you a rosy, white, velvety skin everyone "just loves to touch." Sold at all department and drug stores with the distinct understanding that if you are not pleased in every way you get your money back.

NOTE—A leading druggist, recently interviewed, said, "We have never sold any freckle remover which gives better satisfaction than Derwill. It is having an enormous sale and we gladly refund the money to anyone dissatisfied. It is guaranteed absolutely harmless, and is sold at all toilet counters in this city, including Mann-Tankersley Drug Co., and W. L. Derwoody & Co."

PROSECUTION ENDS WITH WITNESSES IN CHAMBERLAIN CASE

Paris, April 16.—The prosecution in the court martial of Captain E. G. Chamberlain, of San Antonio, Texas, in connection with his reported aerial exploits on the British front, last summer, completed hearing of its witnesses today after nineteen days of sitting.

Commander Jorne, prosecuting officer, said he wished to reserve the right to hear Major General John M. Salmond, commander of the British Royal Air Force, after the witnesses for the defense had heard, but Donald Harper, attorney for Captain Chamberlain, objected, arguing that the case must be completed before the defense begins. The court decided that General Salmond must be heard immediately. If General Salmond is not present at the session this afternoon, the prosecution will waive a testimony and the defense will begin.

A letter was read in court today from Admiral Benson, chief of the American naval staff, referring to a statement made Monday to the effect that the Admiral had requested that the trial be expedited. It said: "While it is necessary that the magnitude of the notoriety in which the honor of an officer and the naval service are involved, the case has an international character and it is important not to lose any time during the working hours. The case must be heard without undue haste. The prosecution and the defense must be permitted reasonable time as they see fit to insure the hearing of witnesses who are greatly scattered and in order to see that full justice is done."

ASK AID OF FUEL ADMINISTRATION

Ft. Smith, Ark., April 16.—H. N. Taylor, of Kansas City, vice president of the Central Coal and Coke company today telegraphed Dr. H. A. Garfield, federal fuel administrator, declaring the company will gladly submit to the fuel administration the entire coal mine strike situation in the southwest, for settlement, it was announced here. The telegraph was forwarded after the company had received a copy of a telegram sent by Dr. Garfield to President John Wilkinson, of District Number 21 and President Alex. Howatt, of District 14 United Mine Workers, informing them that the fuel administration is determined to enforce existing laws and regulations, and insisting that the strike order which went into effect today, be recalled by them. Mine workers leaders declare that nearly 5,000 miners in Arkansas, Oklahoma and Kansas today obeyed the strike order.

PLAN RENEWAL OF GERMAN CREDITS

Paris, April 16.—A meeting has been arranged between financiers representing Holland, Denmark, Norway, Sweden and Switzerland and the financial section of the allied and associated governments to enable the neutrals to arrange with Germany for renewal and extension of German credits maturing in the near future. It also is planned to arrange for these neutrals to assist in improving German exchange conditions, so as to enable Germany to purchase food and raw material.

Don't Exaggerate. The girl who stretches every statement she makes out of all resemblance to the actual facts of the case may imagine she is strengthening what she is trying to say. But that is a mistake. People who listen to an exaggerated statement invariably discount it, and usually more than it deserves, and in addition they feel a distrust of anything which has to be so overemphasized. Every exaggerated statement is weakened in proportion as it is exaggerated.—Grit.

Indian Summer. Indian summer is the return of genial but not hot weather after sharp frosts. It is the moment when the door of the vestibule of winter is left standing ajar for a moment to let the light, and just a little—not too much—of warmth of departing summer stream in. It is a season without a rival—briefer even than the briefest spring, tenderer than the softest summer; it is the anodyne of the year's woes and the promise and pledge of a man's restoration of Eden.—Exchange.

Batavia Attractive City. Batavia is a city divided into two parts—Woltevreden, or the modern Batavia, and Benedenstadt, or Old Batavia. In the days of Batavia's prime Old Batavia was known as the "Queen of the East," or more appropriately, as the "White Man's Grave." Woltevreden is the section of Batavia in which the European residences, government buildings, shops and stores are located. It is a very attractive city, with wide streets, many garden features, good-looking buildings, spacious lawns and modern improvements.

Of Latin Derivation. Corps is a French word derived from the Latin corpus, a body, either civil or military, as a police corps, marine corps, etc. It does not signify any particular number, but an organized body. In the United States army a corps consists of two or more divisions, each containing three brigades and each brigade three regiments. The term first came into use in this country during the Civil war period.

courage and manhood. That the girl he loves comes to him in the winning accentuates the constructive side of the story. The story was written by William McLeod Raine and the scenario was the work of J. G. Hawks. The leading woman is Seena Owen.

ORPHEO THEATRE.

The Ragtime Wonders will present "Two Gay Sports" at the Orpheo Theatre today. "Two Gay Sports" is a one-act comedy with Harvey Reese and Phil Hart in the title roles.

There will be an entire change of musical numbers, wardrobe, and scenery. The musical hits will be "For the Two of Us," "Cute Little Wiggle Dance," "Hitchy Coo," "Extemporaneous Medley" and several others including new instrumental numbers by the musical Kingsbury.

The fascinating story of a man who goes straight to win a girl's love and who then braves a long prison term when he thinks it is necessary to hold the love of his bride, is told in "Hoarded Assets," which will be seen in the Orpheo theatre today.

HAUBER THEATRE.

Clara Kimball Young and Her Own company will be seen at the Hauber theatre today in her latest. Select picture, "Cheating Cheaters," a film adaptation of the famous Broadway stage success of the same name.

"Cheating Cheaters" is one of the most unusual plays ever produced on either stage or screen. In it Miss Young has the role of a clever secret service operative, who apparently is a member of the famous band of crooks. As the leader of one band she plans to rob the home of the supposedly wealthy Palmers, but at the last minute she learns that the Palmers also are crooks, and are themselves planning to rob the Brocktons the name which the first band has taken. There is a general mix-up of families, crooks and secret service people, but in the end things are smoothed out, and the seed of an un-

MOVIES AT HIGH SCHOOL.

The moving picture program for tomorrow night at the Central High school features Mary Pickford in "The Unchanging Sea," with "A Trip to Mount Rainier," "The Lady of the Lake," "Sandy and Shortly Work Together," and "Towser's New Job" as other numbers.

Beginning today theatre advertisements will be placed on page six. 1t

Paper Conservation Not New.

The Chinese have an ancient custom, old when Europe was young, and based upon their respect for learning, observes Robert L. McElroy of the National Security league. They never allow paper which contains written symbols to litter the streets or fields. Chinese mothers train their children to deposit all such scraps of paper in the picturesque little buildings which dot the temple gardens. "The wrath of heaven falls upon those who disregard this duty" is a lesson carried in each tiny Chinese heart.

Cause of Sun's Eclipse.

Eclipses of the sun are caused by the moon coming between the earth and the sun in such manner as to obscure the sun or a portion of it from the view of a section of the earth. An eclipse of the moon results when the earth comes between the sun and the moon so that the shadow of the earth falls upon the whole or a part of that portion of the moon visible to the earth.

Which Kind of Parlor?

The building trade today is largely using methods in use in the days of the Pharaohs, said the principal architect of the office of works, at the Royal Sanitary Institute in England recently. "The parlor question," he went on, "is a difficult one. Some people prefer one large, pleasant room to a poky living room and small parlor. Others urge that the parlor is necessary for children to do their lessons in, to accommodate the piano and household goods, and also the coffin in the event of a death in the family."

Good Sugar-Producing Country.

The soil and climate in the Peruvian valleys are exceptionally favorable to the production of sugar, and the average yield of four or five tons per acre is said to surpass that of any other sugar-producing country, with the exception of Hawaii.

Anger Futile and Foolish.

Anger is the most important passion that accompanies the mind of man; it effects nothing it goes about, and hurts the man who is possessed by it more than any other against whom it is directed.—Clarendon.
